

### Listing of Amended Claims

1. (Currently Amended) A composition comprising
  - (1) 30 to 98.5 weight percent highly crystalline polypropylene base resin having a tacticity index greater than 90 and melt flow rate from 0.5 to 100 g/10 min.;
  - (2) 1 to 70 weight percent polymers which is incompatible with said base resin selected from the group consisting of ethylene-vinyl alcohol copolymer, polyamide, polyester, polyvinylchloride, polyvinylidenedichloride, ethylene-carbon monoxide copolymer and terpolymer, polycarbonate, polyether, high impact polystyrene, styrene-acrylonitrile copolymer and acrylonitrile-butadiene-styrene terpolymer; and
  - (3) 0.25 to 10 weight percent grafted propylene-ethylene impact copolymer having an ethylene content from 5 to 30 percent and molecular weight distribution of 7 or less and which is a reactor-made intimate mixture of propylene homopolymer and 20 weight percent or more propylene-ethylene copolymer grafted with 1 weight percent or more maleic anhydride.
2. (Cancelled)
3. (Currently Amended) The composition of Claim 1 wherein the tacticity index of the polypropylene base resin is greater than 94 and melt flow rate is from 2 to 50 g/10 min.
4. (Cancelled)
5. (Cancelled)
6. (Currently Amended) The composition of Claim 1 wherein the graft monomer content is 1.75 to 3.5 weight percent and the graft to melt flow rate ratio of the grafted impact copolymer determined in accordance with the formula (Weight Percent Monomer Grafted ÷ Melt Flow Rate) x 100 is 0.5 or above.

7. (Previously Amended) The composition of Claim 1 comprising 50 to 95 weight percent polypropylene base resin, 2.5 to 60 weight percent incompatible polymer and 0.5 to 5 weight percent grafted propylene-ethylene impact copolymer.
8. (Cancelled)
9. (Previously Amended) The composition of Claim 1 wherein the incompatible polymer is a polyamide selected from the group consisting of polytetramethylene adipamide, polyhexamethylene adipamide, polyhexamethylene azelamide, polyhexamethylene sebacamide, polyhexamethylene dodecanoamide, polycaprolactam, polybutyrolactam, polypivalolactam and poly-11-aminoundecanoic acid.
10. (Cancelled)
11. (Previously Amended) The composition of Claim 9 comprising 50 to 95 weight percent polypropylene base resin, 1 to 30 weight percent polyamide and 0.5 to 5 weight percent grafted propylene-ethylene impact copolymer.
12. (Cancelled)
13. (Cancelled)
14. (Cancelled)
15. (Cancelled)
16. (Cancelled)
17. (Cancelled)
18. (Cancelled)
19. (Cancelled)
20. (Previously Presented) The composition of Claim 11 wherein the polyamide is polycaprolactam.
